

CX-1™

CX-1™

CX-1 is produced utilizing an exclusive extraction process of Purple Cow. This method preserves and delivers diverse beneficial microbes for agricultural and horticultural applications.

Ingredients: Water, Purple Cow Starter, Soluble Seaweed

Instructions:

- Store in a place out of direct sunlight.
- Agitate before dispensing and during applications.
- Best if used within 180 days.

Recommended for all applications: Add 4 lbs of Purple Cow Activator per 275 gallons of extract. Apply within 6 hours of adding Activator.

CX-1 General Use Recommendations:

Furrow Applications	2-6 gal/acre
Foliar Applications	2-6 gal/acre
Broadcast Applications	5-15 gal/acre
Crop Residue Management	4-6 gal/acre

Not for human consumption.

Net Volume: 275 gallons
