- Carbon-based fertilizer technology that feeds soil biology, enhances nutrient uptake and increases yield potential.
- Calcium nutrition is essential for potatoes. It can be difficult to get enough calcium into your crop. TerraNu Calcium™ is your solution.
- User-friendly— easy to apply and blends well with other dry fertilizers.
- **TerraNu Calcium™** soil health, calcium, sulfur, and boron in every granule.
 - Boron in every granule for better calcium uptake and transport.
 - Multiple calcium sources for a complete nutrition program.
 - Increases nutrient uptake and enhances crop performance.
 - Improves tuber quality, shape, size, storability and skin quality.
 - Reduce internal and external defects.

Product	Rate	Application Timing	Application Method
TerraNu Calcium™	400-500 lbs/acre	<ul style="list-style-type: none"> ▪ fall ▪ spring/pre-plant ▪ at planting ▪ first/second hilling 	<ul style="list-style-type: none"> ▪ broadcast ▪ in-furrow ▪ 2x2 band ▪ in blends

Work with your consultant or agronomist to find the application timing and methods that work best for you.
