

SOIL HEALTH IN EVERY GRANULE™

SOYBEANS

IMPROVE SOYBEAN QUALITY AND YIELD POTENTIAL

- Carbon-based fertilizer technology that feeds soil biology, enhances nutrient uptake and improves nutrient-use efficiency.
- Enhanced crop nutrition in every granule: TerraNu improves soil health and increases yield potential.
- TerraNu Technology improves soil biology for healthier roots and increased nodulation.
- User-friendly: easy-to-apply and blends well with other dry fertilizers.
- **TerraNu Calcium™** — soil health, calcium, sulfur, and boron in every granule.
 - Boron in every granule for better calcium uptake and transport.
 - Provides sulfur, an essential building block in chlorophyll development.
- **TerraNu Ignite™** — is your high NPK plus complete macro- and micronutrient package for your high-yielding soybeans.

Product	Rate	Application Timing	Application Method
TerraNu Calcium	200 lbs/acre	<ul style="list-style-type: none"> ▪ fall or spring ▪ pre-plant 	<ul style="list-style-type: none"> ▪ broadcast ▪ strip-till
TerraNu Ignite	100 lbs/acre		<ul style="list-style-type: none"> ▪ 2x2 band ▪ in blends

Work with your consultant or agronomist to find the application timing and methods that work best for you.
