

TerraNu[®] Technology

SOIL HEALTH IN EVERY GRANULE™

STRIP-TILL

IMPROVE SOIL HEALTH & NUTRIENT-USE EFFICIENCY IN THE STRIP

“We applied 100 lbs/acre of TerraNu Ignite on our corn acres in a spring strip-till refresh pass using our SoilWarrior. TerraNu Ignite was easy-to-load and metered flawlessly through the machine.

The crop looks great right now, and we are excited to see the results this fall.

We are also looking forward to the results of Midwestern BioAg field trials and tissue sampling results showing P&K uptake.”

-Chad Peterson, Peterson Grain Farms, IL

- Carbon-based fertilizer technology that feeds soil biology, enhances nutrient uptake and increases yield potential.
- TerraNu Technology improves soil health in the strip.
- Uniform nutrient analysis in every granule.
- Low-salt, root-friendly.
- User-friendly: easy-to-apply and blends well with other dry fertilizers, facilitating precision placement and uniform distribution within the strip.
- Improves the nutrient-use efficiency of other products in your program.
- **TerraNu Ignite™** – your best fit for strip-till, enhanced NPK plus complete macro- and micronutrient package for your high-yielding crop.
- **TerraNu MicroPack™** – soil health and sulfate-based micronutrients in every granule, providing all your micronutrient needs for a high-yielding crop.
