NET WEIGHT: 50 Lbs. (22.67 Kg)

"O" PYK

Description: A probiotic, yeast and kelp combination specifically designed to maximize rumen / digestive tract health and efficiency in all livestock.

Features:

Contains live, beneficial bacteria (including Lactobacillus acidophilus) and live yeast cells.

Provides digestive enzymes.

Contains certified organic Thorvin kelp as a source of over 60 trace minerals and vitamins. Excellent for reproduction, immune system function and hoof health.

Contains OMRI listed yeast culture.

All ingredients designed to meet organic production standards.

Feeding rate: See label for species specific feeding rates.

Recommended uses: All livestock rations. Especially useful for incoming livestock and during ration changes to stabilize the digestive tract.

Precautions: Check with your local organic certifying agency for acceptance before using this or any feed supplement.

Note: All microbial cultures in this product are naturally occurring and have not been genetically modified in any way.
