

BETTER FARMING
THROUGH BETTER SOIL

Organical

This Product is intended for use according to an approved Organic System Plan.

Guaranteed Analysis

Calcium (Ca)
Sulfur (S)

24%
4%

BULK DENSITY (lbs/cubic ft) 80#

DERIVED FROM:

Mined Sources of Calcium Sulfate, Calcium Carbonate

ALSO CONTAINS NON-PLANT FOOD INGREDIENT:

Humate 5%

APPLICATION RATE

Directions for Supplemental Calcium Needs

For Use on Potatoes:

Apply at a rate of 45-100 pounds of calcium per acre in three split doses:

1. At hilling
2. At 3 weeks after hilling
3. At 6 weeks after hilling

For Use on Seed Potato Production:

Apply at a rate of 150 pounds of calcium per acre in three split doses:

1. At hilling
2. At 3 weeks after hilling
3. At 6 weeks after hilling

Pumpkins, Squash, Melons and Other Vine Crops:

Apply at a rate of 50 pounds of calcium per acre at emergence and 50 pounds of calcium per acre at fruit set.

For Sulfur-Demanding Crops:

Sulfur deficiency is most likely to occur with alfalfa, canola or forage brassicas and cole crops grown on sandy soils or soils low in organic matter. If sulfur is needed, apply at the following rates:

Forage Legumes:

At Seeding: Apply 25-50lbs. Sulfur/Acre.
Established Stands: Apply 15-25lbs. Sulfur/Acre.

Corn, Grains, Vegetables and Fruit Crops:

Apply 5-15lbs. Sulfur/Acre.

All Fertilizer Ingredients comply with requirements of the USDA National Organic Program (NOP) as specified in 7 CFR Part 205
