*0.15% Slowly available nitrogen from Sugar Cane Molasses

F2210

Usage Instructions:

QLF L-CBF Terra Fed 1-0-3 is a liquid fertilizer, which can be used in combination with other liquid fertilizers. Typical application rates are 1 – 10 gallons per acre; with specific application rates based on crop and soil type. For information regarding specific application rates, application methods, and mixing and handling instructions, consult with your QLF L-CBF representative.

Always do a jar-test to determine compatibility with any other liquid fertilizer. This product is water miscible allowing it to be applied through properly designed liquid application equipment. If diluted with water use within 48 hours of mixing.

Information regarding the contents and levels of metals in this product is available on the internet at:
