

FREE CHOICE BUFFER

Mineral Supplement for Lactating Cattle

GUARANTEED ANALYSIS

Calcium (min)	10 %
Calcium (max)	12 %
Magnesium (min)	5.5 %

INGREDIENTS

Calcium carbonate, yeast culture, montmorillonite clay, sodium bentonite, magnesium oxide, mineral oil.

FEEDING INSTRUCTIONS:

Feed free choice at the rate of 1 to 8 ounces per head per day to cattle on pasture.

FREE CHOICE BUFFER

Description: A buffer source as an alternative, or in addition, to sodium bicarbonate.

Features:

Contains calcium and magnesium sources with rumen buffering capability.

Provides 'clay' based buffers such as montmorillonite and bentonite.

Contains yeast culture to help stabilize the rumen fermentation process.

Highly palatable as a free choice supplement.

Feeding rate: 1 to 8 ounces per animal per day.

Recommended uses: As an alternative buffer in place of, or in addition to, sodium bicarbonate. Use intake of Free Choice Buffer as a measure of rumen health and acid levels. Also use to complete the free choice program in conjunction with BioAg's "O" SK Blend and "O" Free Choice Mineral.

Precautions: None
